## **Big Data: The Management Revolution**

The big data revolution is changing the way we make business decisions, yet, it's difficult for established companies to instantly adopt big data. Established enterprises weren't built to change: they rely heavily on their well-rooted processes. They are also bound by their obligations to stakeholders and focused on staying effective. This makes the

The revolution is in the data: The real revolution is not in the machines that calculate data but in data itself and how we use it. The amount of stored information grows four times faster than the world economy, while the processing power of computers grows nine times faster. A movie is fundamentally different from a frozen photograph.
